

PIES THAT ALL WILL LIKE

Recipes Have Had the Sanction of Generations of Presiding Geniuses of the Kitchen.

Cherry Pie.—Line the pieplate with good crust, fill half full with stoned ripened cherries; put a teaspoon of flour with a cup of sugar and sift; sprinkle this over cherries; dot over a few bits of butter. Now fill the crust full to the top with more cherries. Cover with upper crust and bake.

Currant Pie.—One cup of mashed currants, one of sugar, two tablespoons of water, one of flour, beaten with the yolks of two eggs. Fill crust, bake. Frost the top with the beaten whites of the two eggs and two tablespoons of powdered sugar. Brown lightly in oven.

Cream Pie.—Pour a pint of cream over one and a half cups of sugar. Let it stand until the whites of three eggs have been beaten to a stiff froth. Add to this the cream and sugar and beat up well; grate a little nutmeg over the mixture and bake without an upper crust. A heaping teaspoon of sifted flour sifted with the sugar will make a firmer pie if liked.

Custard Pie.—Beat up the yolks of three eggs to a cream. Stir and sift together a tablespoon of flour and three tablespoons of sugar; add this to the beaten yolks with a pinch of salt, a teaspoon of vanilla and a little grated nutmeg; next the well beaten whites of the eggs and then a pint of scalded milk (not boiled) which has been cooled. Mix this in by degrees and turn all into a deep pieplate lined with puff and bake from 25 to 30 minutes.

FOR THE COOKING UTENSILS

Extra Shelves, According to One Housewife, Has Solved a Troublesome Problem for Her.

One usually has so many pans and cooking utensils that convenient storing becomes a problem. They are placed one inside of the other and

when you want a certain pan it is generally at the bottom. After I had been frequently annoyed in this way I decided upon the plan illustrated. To the underside of each shelf I nailed blocks three inches wide and one inch thick, and to them I fastened light

strips. This made an additional shallow shelf for each deep shelf. In the picture "C" is the block, "S" the strips. It is better to use strips than a solid board because the latter would hold this, which would be difficult to remove from so narrow a space.—Exchange.

Cleaning Collars.

When the coat collar becomes soiled it may be cleaned in this manner: Dissolve one part salt in four parts alcohol.

Apply this mixture with a sponge and rub well.

Spinach Cakes.

The thinnest possible pancakes are baked and filled with the ready cooked spinach. They must be rolled and put in layers in a buttered pudding dish and a good quantity of sour cream poured over them. They are then baked in the oven for 20 minutes and served immediately.

Raw Sliced Cucumbers.

Parse and lay them in ice water one hour, then slice and season to taste with vinegar, pepper and salt. Never omit soaking in ice water.

Prune and Date Pie.

Soak prunes over night and remove stones. To two cups of prunes add one-half cup dates cut in tiny pieces, the grated rind and juice of one lemon, three tablespoons sugar and the prune juice. Dredge with flour, dot with bits of butter, put on upper crust and bake.

The Best Teacher.

Men do nothing excellent but by imitation of nature.—Jean Jacques Rousseau.

TO TUNNEL UNDER CHANNEL

Long-Delayed Franco-English Project Is Once More Being Put Forward.

A tunnel between England and France beneath the English channel was first proposed at the beginning of the nineteenth century by Mathieu, a French mining engineer, says the Argonaut. Fifty years later the scheme was financed, but it was not until 1897 that it seemed that the project would be actually attempted. At that time there were a dozen or more plans for rail communication between the two countries. The abandoned beneath the bed of the channel. The estimated cost of the undertaking was about \$10,000,000. Preliminary boring had been made, when the work was interrupted by the Franco-Prussian war. In 1874 the French and English governments resumed negotiations concerning the tunnel, leaving the matter in the hands of a joint commission. Failure on the part of the English company holding the contract for the work to receive sufficient funds resulted in the failure of the enterprise in 1880. Now the project is receiving some attention, a better feeling having been established between the people of the two countries.

THE BEST TREATMENT FOR ITCHING SCALPS, DANDRUFF AND FALLING HAIR

To allay itching and irritation of the scalp, prevent dry, thin and falling hair, remove crusts, scales and dandruff, and promote the growth and beauty of the hair, the following special treatment is most effective, agreeable and economical. On retiring, comb the hair out straight all around, then begin at the side and make a parting, gently rubbing Cuticura ointment into the parting with a bit of soft flannel held over the end of the finger. Anoint additional partings about half an inch apart until the whole scalp has been treated, the purpose being to get the Cuticura Ointment on the scalp skin rather than on the hair. It is well to place a light covering over the hair to protect the pillow from possible stain. The next morning, shampoo with Cuticura Soap and hot water. Shampoos alone may be used as often as agreeable, but once or twice a month is generally sufficient for this special treatment for women's hair.

Cuticura Soap and Ointment sold throughout the world. Sample of each free with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston." Adv.

Explaining What a Snob Really Is.

"Uncle Roy, what is a snob?" "A snob, Eddie, is a person who inherits a great deal of money, goes abroad and buys himself a veneer of culture, returns home and poses as a connoisseur of something, and goes around calling his poor relations 'parvenues.' Why do you ask such a question, Eddie?"

"Because I heard Donald's big brother talking about you this afternoon and he said you were a snob."

I Invite Suffering Women

There is every reason why women should not trust their delicate constitutions in the hands of unskilled persons. It requires a thorough medical education to appreciate and understand the delicate female organism. There is every reason why she should write or personally consult an experienced specialist.

As a powerful, invigorating tonic, "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For "run-down," debilitated women of all occupations

DR. PIERCE'S Favorite Prescription

is unequalled as a restorative tonic. As a soothing and strengthening nerve "Favorite Prescription" allays and subdues nervous excitability, irritability nervous exhaustion, and other distressing symptoms commonly attendant upon functional and organic diseases of the feminine organs. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Favorite Prescription is devised and put up by a physician of vast experience in the treatment of women's maladies. Its ingredients have the indorsement of leading physicians in all schools of practice.

The "Favorite Prescription" has been sold by dealers in medicine in its liquid form for over 40 years. Now it can also be obtained of them in tablet form—or send 50 one-cent stamps to Dr. Pierce for trial box.

"It Helped Me So Much."

Mrs. F. W. Myrnes, of Boston, Pa., says: "Your 'Favorite Prescription' has done me a wonderful lot of good. Seven years ago when our first child was born I was left miserable. I suffered with two physicians without any relief. I then went to see one of the best doctors in Williamsport; he said I must have an operation at once and that I should quit work, but that was something I could not do. I then began taking your 'Favorite Prescription' and it helped me so much. I always suffered so until our first child when I got along nicely. I shall never go through it again without your medicine. With love by wishing you much success in future."

Perils of Overdelicacy.

A bridegroom gave his best man an envelope.

"Hand it to the parson after the ceremony," he said, "but don't do it ostentatiously."

The best man followed instructions, but it seems that he performed his task too covertly, for the father of the bridegroom, after the pair had departed, believed that an omission had occurred and quietly pressed a banknote into the minister's hand. But he also was to be secretive about it, and before the party broke up the bride's brother felt called upon to draw the minister aside and thrust a \$10 bill upon him.

Demands of Trade.

A WONDERFUL DISCOVERY.

In this age of research and experiment, all nature is ransacked by the scientific method for comfort and happiness. Science has indeed made giant strides in the past century, and among the by no means least important discoveries in medicine is that of Therapion, which has been used with great success in French Hospitals and that it is worthy the attention of those who suffer from kidney, bladder, nervous diseases, chronic weakness, skin eruptions, piles, etc., there is no doubt. In fact it seems evident from the big stir created amongst specialists, that THERAPION is destined to cast into oblivion all those questionable remedies that were formerly the sole reliance of medical men. It is of course impossible to tell others all we should like to tell them. In this short article, but those who would like to know more about this remedy that has effected so many cures might almost say, miraculous cures, should send addressed envelope for FREE book to Dr. Lettice Med. Co., Haverstock Road, Hampstead, London, Eng. and decide for themselves whether the New French Remedy "THERAPION" No. 1, No. 2 or No. 3 is what they require and have been seeking in vain during a life of misery, suffering, ill health and untimely death. Therapion is sold by druggists or mail \$1.00. Fougere Co., 40 Beekman St., New York.
